

## FUEL SYSTEM CLEANER

A fast-acting blend of cleaners and detergents that you pour right into the gas tank to boost performance and gas mileage. It removes deposits in combustion chambers, intake manifolds, ports, and valves and restores flow in fuel injectors. With regular use, it keeps the entire fuel system clean and operating at peak performance, helping fuel to burn completely and cleanly, reducing emissions.

### APPLICATION:

- Recommend in use of all gas naturally aspirated engines
- Gas turbo engines
- Gas supercharged engines

### FEATURES & BENEFITS:

- Restores engine performance loss due to dirty fuel system
- Improves fuel combustion
- Cleans fuel injectors
- Cleans carburetors
- Keeps fuel system clean
- Contains NO alcohol
- Contains PEA Technology
- No environmentally harmful dyes

### DIRECTIONS:

Pour entire contents of bottle into gas tank. One bottle treats up to 20 gallons (75.71 Liters) of fuel. Do not spill on paint or fiberglass.

**Dirty Injector**

**Clean Injector**

### HEALTH & SAFETY, ENVIRONMENT:

Prolonged and repeated contact with oil may cause skin disorders. Avoid contact. Wash immediately with soap and water. Do not discharge used oil in to drains or the environment. Dispose to an authorized used oil collection point. For further information on Safety Guidelines please refer to MSDS available on our website [www.lubrex.net](http://www.lubrex.net)

### HEALTH & SAFETY:

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet [www.lubrex.net](http://www.lubrex.net)

### PROTECT THE ENVIRONMENT:

Take used oil to an authorized collection point. Comply with local regulation. Do not discharge into drains, soil or water.

### STORAGE:

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
