

DIESEL FUEL WINTER CONDITIONER

Diesel Fuel Winter Conditioner boosts diesel fuel performance by providing injector detergency, fuel economy, smoke reduction, fuel stability, and corrosion protection. Fuel treated with Diesel Fuel Winter Conditioner will clean up dirty injectors and, with regular use, will keep them clean. Cleaner fuel injectors function better, resulting in reduced emissions, extended maintenance intervals, and improved fuel economy. In addition, Diesel Fuel Winter Conditioner contains a cold flow improver, which helps diesel fuel systems perform well in very low temperatures, by modifying wax crystal formation and improving filterability.

APPLICATION:

- Recommended for use in all diesel fuel systems
- Recommended for Tier 4 Diesel Engines

FEATURES & BENEFITS:

- Cleans injectors
- Reduces cold flow
- Anti-Gel
- Increases fuel economy
- Reduces emissions
- Lubricates fuel injectors
- Resists Corrosion
- Lubricants fuel injectors
- Anti-Gel protection to minus 15 Degrees F
- No environmentally harmful dyes

DIRECTIONS:

Pour entire contents of this bottle into fuel tank. One bottle treats up to 15 gallons (56.78 Liters) of diesel fuel.

Dirty Injector

Clean Injector

HEALTH & SAFETY, ENVIRONMENT:

Prolonged and repeated contact with oil may cause skin disorders. Avoid contact. Wash immediately with soap and water. Do not discharge used oil in to drains or the environment. Dispose to an authorized used oil collection point. For further Information on Safety Guidelines please refer to MSDS available on our website www.lubrex.net

HEALTH & SAFETY:

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet www.lubrex.net

PROTECT THE ENVIRONMENT:

Treat used oil to an authorized collection point. Comply with local regulation. Do not discharge into drains, soil or water.

STORAGE:

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
