

TRANSMISSION STOP LEAK

An advanced seal conditioning additive for engine oils. Treats gaskets and seals to help stop minor seal leaks.

APPLICATION:

- Safe for use in all gasoline and diesel transmissions
- Safe for use with all conventional ATF fluids
- Synthetic blend transmission fluids
- Full synthetic transmission fluids
- Not for use in CVT transmissions

FEATURES & BENEFITS:

- Helps transmission seal performance
- Helps reduce leakage
- Compatible with most ATF types
- No environmentally harmful dyes

DIRECTIONS:

Make sure transmission is full of fluid and at operating temperature and pour into transmission fluid. Immediately drive vehicle. Old accumulations on outside of transmission may drip for a few days after leak has stopped. If leak doesn't stop, mechanical attention is needed.

HEALTH & SAFETY, ENVIRONMENT:

Prolonged and repeated contact with oil may cause skin disorders. Avoid contact. Wash immediately with soap and water. Do not discharge used oil in to drains or the environment. Dispose to an authorized used oil collection point. For further Information on Safety Guidelines please refer to MSDS available on our website www.lubrex.net

HEALTH & SAFETY:

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet www.lubrex.net

PROTECT THE ENVIRONMENT:

Take used oil to an authorized collection point. Comply with local regulation. Do not discharge into drains, soil or water.

STORAGE:

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
